

Ship Liverpool In the Sea

Remarks On Board Wednesday 25
Have had for the last week and half
a fair S.W. in Lat 50, Long 18, 30
Since here had the wind, from
N.W. to S.W. thick & raining
in which time I have been making
the best of my way here I have
spoken 12 Ship the South Post
at 12 M. received from 2 Bawhead
I said struck & wound at 4 P.M.
photo came to the ship there
had a N.W. wind & E. thick weather
quite cold

My Lat is 55, 10 Long 18, 18
So ends May the 25th

Remarks On Board June 21st
I now am almost tired of go-
ing in want of Whales I have been almost
the Sea for the last 25 Days and
have seen but of few Whales have
been a knocking about in and out the
Sea all the time have had a hour
and half of the time thick fog and cold
afternoon of ship all the time. Now the
Season is just approaching and
I have not done any thing at all
in the way of Whaling but still
live in hopes this is the 21 Day of
June and not a Whal' yet
I do hope we shall be putted with
a whale soon and then up come
Drooping Spirit

of Kantscoty May 25th 1853

Span Oil about now looking
for whales No ship in sight and
and then cant No Suckare there
One and cant Core if I can only
find whales and get you for this
is the only thing that will revive
how spirits I am steering
and have steered a great many
Course for the last 2 Days in search
of whales yesterday we saw 2 whales
I say I said further but no Suckare
This Day my Lat is

62, 52
Long 177, 00

Remarks On Board Sunday
July the 1st 1853

Since my last watch is about
11 Days I have had all most constant
fog and no whales have yet been
seen not a single of Whales
have been a cursing from place to place
from one end of the Sea to the
Other there is quite a number
of ship that I had done quite well
and the rest as I hardly of
I hope my turn will come soon to
get something soon I hardly see
when to go and what course to take
but still live in hopes that
something will turn up in my
face soon
