

Remains on board July 15th 1853  
This day strong winds from S.W.  
Course by E at 1 PM saw  
the land 2 points of Show dist 5 leagues  
then steering N.W. by compass at 4  
PM I saw a funnel of water  
at 20 minutes past 4 the  
Ship struck bottom hard  
Land from 5 to 10 miles distant  
we then made all attempts to get the  
Ship afloat. Cleared up all sail  
Load abate and dunnage  
the bottom found the most water  
of shore by this time the faults had  
come up along side the Ship from under  
the bottom board and seem to work  
towards the land I then by the  
Standard order and commenced  
triking out and heaving over board  
Oil water and provisions to lighten  
the Ship at 10 PM the wind ceased to  
S.S.E. had lifted the Ship by this  
time she seemed to be quite close on the  
bottom then made all sail had set  
the gills forward Ship seemed to  
work of shore at 10 PM I succeeded  
in founding the Ship afloat after  
loosing Oil Water Provisions and Dunnage  
and 45 buttows chain as soon as  
afloat I found the Ship to have a  
single Motion then I sounded the  
Pumps found 3 feet of water in the  
hull then set both Pumps to gain  
at 1.12 past the Ship

were about

Winds S.S.E. Course S.W. Ship up on  
wind I soon found the Ship to  
be Leaking 4000 strokes per hour  
the Ship seemed to be holed  
and others were badly stranded  
My mind fully made up to steer  
for the nearest port

Later just winds S.S.E. Ship on  
starboard tack Ship seemed to work  
and pumps all most constantly  
at work at about 8  
in the morning saw and spoke  
Ship, Helen Augusta Cap. Jones  
I went on board and  
succeeded in getting a Wedge  
from her found the Ship  
seem to be open to down to all  
aperture and Spikes loose in  
Cabin deck hauld out  
several with fingers

Ship Langaree 14 Days from N. Bed  
Landed and through a  
Large Sperm Whale got foul line but  
sprung him lost the whale  
So Ends

Langaree Cruising for Sperm a  
round Massapequa saw a  
galled Sperm Whale going quick  
No wind or land but 20° N.W. S.W. S.E.

So Ends about the 10th of March  
1860
