

Journal of Service by James
 by Whitehead 1850
 Chronometer Dec 10, 1850
 at that time should be 20.18 in sea
 of 25.18 at this time of first trial to be
 15 miles to the E of the north

Hour rate seems to be 3 seconds
 per day since left home this is what I
 have given her which makes at this time 26.26
 by adding on the previous rate which was 4.81
 I start from this time Dec 14, 1850
 Whitehead Dec 14
 any any M. J. Swift

Dec 17, 1850. Old Chronometer
 agrees with new one by giving her
 a rate of 12.55 seconds
 at this time rate standing
