ERADICATOR

DR. LISIAGE'S SPECIFIQUE FOR SECRETES MALADIE, or "Gonorrhoea Eradicator." The above remedy for the most distressing disease incident to the human race, originated from the enlightened mind of the eminent Le Sage, the penetration and success of which throughout the Kingdoms of France and Italy, has, of late years, added such high honors to the already highly honored name of the inventor. This composition unites safety with efficacy. And the venereal disease, whether in the form of "Gonorrhoea" or "Gleet," is eradicated by the use of it, with certainty and success, and the sufferer is restored to his usual health, without delay or inconvenience. Tens of thousands of "Paragians" will attest to the truth of these remarks, and it is confidently offered to those afflicted as the best and surest remedy for the above mentioned venereal disorder. Of all the reputed specifics for this affection, which for many years have deluged the Continent of Europe, Le Sage's "Specific" alone has been esteemed worthy of general confidence—and has been, and is, eagerly sought after by all who are anxious to be cured without the sacrifice of property. The secret has hitherto been confined to France and Italy. It has been recently introduced by way of New Orleans, to the American public, and is sold in this city only at the Drug Store, No 184 Ann street, corner of North square, and at Dr. Howard's Drug Store, Broad street. It is particularly recommended to sea-faring men, as containing no portion of Mercury, whereby so many have been disabled from service on board ship. The "Eradicator" is found to give immediate relief to those afflicted with "stricture," "white," and diseases of the prostate gland. The proprietor is induced, by reason of the circulation of numerous imitations, to assure those interested that the genuine is to be purchased only of the aforesaid agents. Price \$1 per bottle. 1714
