

On the 11th ...
The main top gallansail
We saw a ship of the line
The West end of being of the
This 5th we steered on till
Took the wind about W and
By South Course we had
and at 10 o'clock we had
we did the best one watch
of the hands pass of fitting
By Observation 42-0

This 24 hours begins with
WBN and run off about 3
crew I was in the Waste
In the 4th boat and Remson
Board Band Wilson in the
about 11 o'clock the wind
West and breeze little
Wind fair and started to
Obs. tion 41-29 so ends

This 24 hours begins with
NNE we steering about
2 or 3 nets all hands
The boats are fitting
and for action with those
We had the wind light
hours Latitude by Observation
40-30 so ends

This 24 hours begins with
The ship went we broke
Stowed down again and
The after hole and stowed
about 6 o'clock the wind
Other way so that we
Sail we had to take

About 10 o'clock we
heavy showers of rain
and about 11 o'clock we
sail we steered of south
about 6 o'clock and at 3
showers and about 5 o'clock
and it bated little and
sail and loosed the mainsail
it and set the gib we had
out of the 24 Latitude by
ends this 24 hours

This 24 hours begins with
all hands at washing and
but with that the wind
about half past 3 o'clock
the main topgallansail the
and haul and about 7 o'clock
I hope and steered to
so ends this 24 hours
Latitude by Observation 30-20

This 24 hours begins with
South East to starboard
blow in drawing and
rain about 4 o'clock
up on deck and it blew
clew up the fore topsail
10 o'clock we could not
to haul and they haul
called the watch and they
topgallansail so the wind
0 o'clock past the ship
and at 6 o'clock we shook
set the gib and main
of rain and squally and
fore and main topgallansail
Latitude by Observation 28-4

This 24 hours begins with
This 24 hours begins with
All hands employed in
we called the watch and
in the fore and main
at reef in the top sail
the starboard boat and
Lanboard boat the same
