

— Was no great distance from the wreck
they tried to prevail on the Captain
to return and assist us, but the un-
feeling man would not be only abused
them and told them to pull away from
us now think on the unfeelingness
of that man, had all the other
boats acted as he had done what
would have become of us we must
have perished certainly they were
four children perished, one the wreck
they were the only lives left the rest
of their friends and parents were
all saved !!
