

a line that never was wet for school
all new lines coiled in clean
Cakes, but as good luck would
have it we got the whole which made
us so bly it were was my misfortune
to have bad lines before and so far it
has been run upon ropes and the
Devil for I have lost more Oil this voyage
age than I ever lost since I was master
of a Ship. I shall be in Talcahuano in
about eight days and have agreed to meet
my brother there but I think I shall be
before him I should not have come to Talca
this season if it had not been that I left my
provision there all free from storage and it
is the cheapest place to go that I ever was
in besides there is all the good things
there Peter if any one is inclined to indulge
of course you and I avoid such
things that tend to evil now Susan put the
worst construction on "you and I avoid" &c.
by the way Susan I did not get a letter
from you but I know that your hands
was full to take care of the children I think
that you are the most of a philosopher that
I ever met who would think that you would
sit down with three children and take it
recolles play things all over the floor
