to you Whos duty It is to take care of my prosperity Left in your hands

It is my wish that you procure young Maple trees and set along the fence on both sides of the Road from the gates up to the corners And I wish you to set peach trees all through the young orchard And have a Walk way between the fields as we have talked of before

What Wood you can take off the Northern part of the the woods and take all as you go and do What you can towards clearing off that stew but attend to the Woods get some Hemlock logs to the saw mill every Winter and save the Lumber to build a Shed When I return If you get able build a new dooryard fence and paint the House but do not get in debt for any day Must come Make all the stone Wall you Have Opportunity to and Keep all the bad Weed cut down If a poor Man Wants a load of Wood do not refuse them But let them have all the old Wood they want for private use I do not care about your selling the Acker Without you get all they owe in the first place but do not fail to make the payments on the Mortgage I rather you Wood sell off both Horses and Oxen than to miss one payment ~~you will be sure to lose~~

you will be sure to loose your home if the money is not at hand when due you will get no favours from the man that he lets the Chums on the farm
